About Us

AFRICAN MEMSAP TECHNOLOGY is a limited company registered with the Registrar of Companies under Kenyan laws.

It was incorporated by a group of investors in different professional qualifications levels.

We are located at the heart of Mombasa city, along Moi Avenue opposite KCB Kilindini branch.

We are a service provider, we run errands, but our main field of service is civil construction, building and contract supplies, with an aim of creating a friendly environment for all working conditions.

Vision:

To grow and become the premier corporate office, homes and compound preferred specialist globally.

Our Mission:

Being a global industry leader we focus on long-term business success through the provision of premium products and services, while always embracing our company objectives.

Our Objectives:

- Consistently meet our customers' expectations with our service and product quality
- ➤ Enhance long-term partnerships with our clients and suppliers.
- Accommodate the environment and communities within which we operate.

In an industry where knowledge and experience counts, our talented team of key personnel enjoys a wealth of experience, providing in-depth understanding of your particular needs and requirements, which are unique to every building. To this end, African Memsap Technology creates its own team for each contract to provide regular maintenance and servicing

WHAT WE DO:

We have a unique approach in all that we specialize in and this makes us different from our competitors and thus puts us in a safe base. We offer and apply the highest professional standards as well as observe code of ethics in all our endeavors.

Since its inception, African Memsap has grown to strive in all its capability to satisfy our clients to the utmost, in so doing adapting to various situations.

We have an able team of qualified work force to reckon with and as thus they ever do their best for the satisfaction of our clients and growth of the company.

Its business policies are customer focused and include:

- Uphold good business ethics and practice
- ❖ Appropriate customer product acquisition strategy
- ❖ Exemplary product presentation
- Supply of high quality products
- ❖ Provide services that satisfy our customer needs

OVERVIEW

In pursuant of our mission to capture and create a different advantage in the supply chain business, the company has built on certain competences that are crucial in attracting and maintain client in its business. The competence include among others;

- ➤ We deliver high quality products sourced from reputable and recognized manufacturers and agents in both local and international markets.
- ➤ We focus our attention on customer retention and provide a frame work to avoid complaints and inconveniences to our customers arising from delays in product delivery and eventual losses that may be encountered.
- ➤ We develop, attract and retain a pool of qualified staff so as to maintain a competitive edge in the supplies, constructions and purchase of a business.

What really makes us so different?

Our staff with their professional approach, are each individually inducted, fully trained and highly motivated to ensure the stringent standards that clients expect.

Our continued growth has been achieved by our unparalleled commitment to contract supervision and continuous detailed inspection, combined with regular client and staff contact.

All our directors as shareholders have an unrivalled commitment to the success of the company. Professionalism in their field, a personal service and determination to provide a value money service are the hallmark of African Memsap Technology.
